The prospect of Sixth Form education is a most exciting, challenging and important one.

It represents the final phase of formal schooling, the transition to adulthood and all the hopes and opportunities that this brings. We believe that, at St Edmund's, our Sixth Form offers you a superbly supportive environment which will provide a passport to the best universities, art schools and other institutions of higher education in Britain and abroad.

There is a wide range of subject choices at the College which will prepare you for whatever higher education course you choose and for careers in the professions, business, and the creative and media worlds. What no brochure can properly illustrate is the excellent pastoral and academic support that you will receive, helping make the transition from GCSEs to A Level study as smooth as possible and supporting you through these vital two years when important choices have to be made.

Our support for your UCAS application is excellent and our dedicated Head of Sixth Form and Higher Education Adviser are backed up by our tutors who will give you all the support you need as you make your application.

'Avita Pro Fide' For the Faith of our Fathers
